

ALS Laboratory Group

Minerals

Whitehorse, Yukon

ALS Minerals is pleased to announce a new sample preparation facility in Whitehorse, Yukon, opening in May 2010.

ALS Minerals Commitment to Quality and Service

- ALS Standard Operating Procedures at a local Yukon location
- Sample security and custody in Whitehorse
- Patented dust control system to decrease the potential for cross contamination
- On-line ALS Webtrieve™ system allows tracking, audit and data retrieval.

ALS Experienced Management

We are pleased to announce the ALS Minerals Whitehorse Branch Manager, Jo van Randen. Jo is a geologist with over 25 years of experience and brings an understanding of the samples and technical expertise to our Yukon clients.

Jo has been employed in the Yukon as a consulting geologist for numerous companies and the Yukon Geological Survey since 1989. She has been involved in all aspects of exploration projects. Her experience with various geological environments will enable her to provide our clients with technical advice and local expertise in matching the best analytical methods to exploration programs.

ALS Minerals Whitehorse
78 Mt. Sima Road Whitehorse, YT, Canada, Y1A 0A8.
